Profile

I am a passionate graphic designer with Five years of experience in design, video editing, and motion graphics. Currently studying Information Technology Engineering, I combine creativity with technical skills to deliver impactful and innovative visual content.

Professional Experience

Sky Agency

Motion Graphics

05/2025 – present

- Integrated motion graphics into client solutions and contributed to various social media campaigns in the food industry. Focused on creating visually appealing animations to present food products in an engaging and appetizing way, ensuring the content aligned with the brand's visual identity and effectively captured the attention of the target audience.

Graphics Designer, Video Editor

05/2025 – present

Damascus, Syria

- Currently responsible for creating social media posters and editing promotional video shoots for well-known local food companies. I handle the end-to-end design process, ensuring that visual content resonates with each brand's identity and marketing goals. My work includes designing visually compelling graphics and videos optimized for different social media platforms, contributing to consistent brand engagement and visibility.

Wissam Productions Agency

Motion Graphics

2024 – 2025

- I integrated motion graphics into the solutions provided to clients and contributed to various social media projects in fields such as nutrition and bags. My work focused on creating engaging motion graphics to showcase products in the most visually appealing and effective manner.

Graphic Designer, Video editor

2023 – 2025

Kuwait

- I designed various visual content and managed video editing for client accounts across multiple industries, including jewelry, veterinary medicine, bags, food, pet care, food machinery manufacturing, and technology. I transformed clients' visions and ideas into tangible designs, ensuring high-quality content that aligned with their brand identity and specific needs. This involved creating engaging graphics and videos tailored to each client's industry and objectives.

Go Smart Kuwait

Social Media Designer, Video maker.

Go Smart is a Kuwaiti company specializing in selling computer components and other technological products. As a content designer, I handle all the necessary design work for the company's accounts, including creating posts and videos to effectively showcase and promote their products.

2024 – 2025

Kuwait

Al-Marfoo Virtual School

Graphic designer, Video maker.

Al-Marfoo School is a Syrian virtual school that offers the Syrian curriculum to students outside Syria through an online platform. I am responsible for designing social media content and managing all the school's design needs, including documents, cards, and printed materials.

2024 – 2025

Syria

Horan Clinic

Social Media Designer.

"Dr. Horan is a urologist who publishes important articles and information related to his field. I have transformed these articles into infographic designs for social media."

2024 – present

UAE

FreeLance

- I have provided logo and visual identity design services for many accounts in the gaming and streaming sector.
- I have also worked on fulfilling social media page needs, including images and banners for social media.
